

en

At a glance

Your Moto E™ is built to keep up with you. It has a crisp display, the latest software, and a battery that lasts all day. It's water-resistant, and you can even customize your phone to match your style with Motorola Bands and Grip Shells.

Note: Motorola Bands and Grip Shells are sold separately. Availability varies by country.

Caution: Before using your phone, please read the safety, regulatory and legal information provided with your product.

Note: Your phone may look a little different.

Remove the band

The band around the edge of your phone covers the SIM and memory card slots.

Caution: Don't use tools to remove the band—doing so may damage your phone.

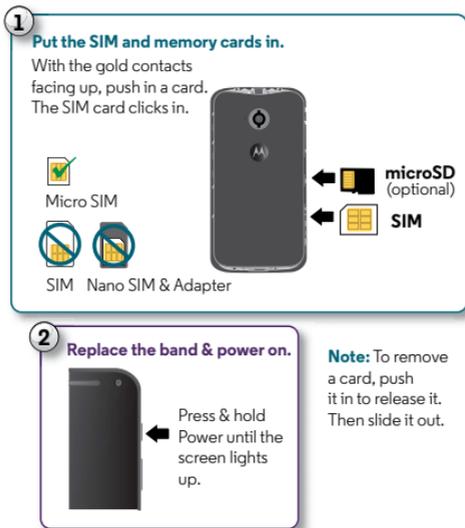

Note: To replace the band, align the top first, then match up the Power and Volume keys. Snap on the bottom then, press around the whole edge until the band is in place.

Put in the SIM & memory cards, replace the band, & then power on

Put in the SIM card (if it's not already in) & optional microSD card.

Caution: Make sure you use the correct size SIM card, and don't use adapters with your SIM card.

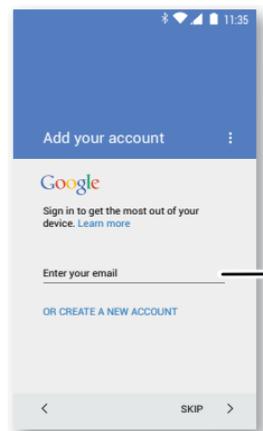

Note: To remove a card, push it in to release it. Then slide it out.

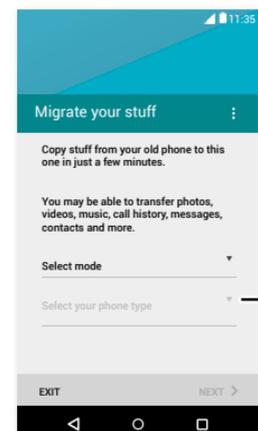

Sign in

If you use Gmail™, you already have a Google™ account—if not, you can create an account during setup. Signing into your Google account lets you use Google apps, see your contacts, appointments, photos, and more.

Just select your language and follow the screen prompts to get started.

Contacts, appointments, photos, and more—sign in to see it all.

Select your old phone type.

Motorola Migrate

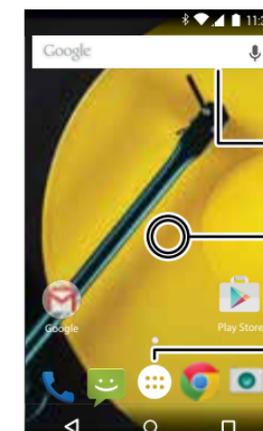

Copying your personal stuff from your old Bluetooth-enabled phone to your new phone with Motorola Migrate is easy.

- **From Android™:** On your old phone, download the Motorola Migrate app on Google Play™ to get started. Then on your new phone, touch Apps (☰) → **Migrate**.
- **From iPhone or other phone:** On your new phone, touch Apps (☰) → **Migrate** to get started.

Home screen & settings

From the home screen, you can explore apps, check notifications, speak commands, and more.

- **Add a shortcut to a home screen page:** Touch Apps (☰), touch and hold an app, then drag it to your home screen, or to the right side of the home screen to add a new page.
- **Customize:** To change your Wi-Fi, brightness, and more, drag the status bar down with two fingers.
- **Share your phone:** To change the user account or set up a new user account, drag the status bar down with two fingers and touch (ⓘ).

Swipe down to see notifications, profiles and settings.

Search by typing or saying "OK, Google".

Touch & hold an empty spot to add widgets, change wallpaper, or access settings.

Touch Apps (☰) to see all your apps.

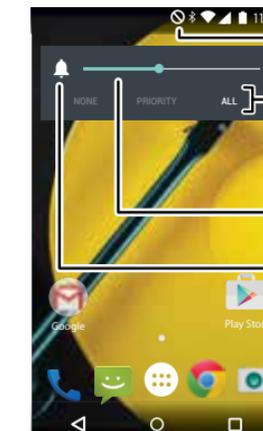

Volume

Press the side Volume Key up or down to select a ringer volume from high to vibrate (🔕).

Also, touch one of these options for more settings:

- **All:** Receive all notifications and alarms.
- **Priority:** Touch (⚙️) to select which interruptions to receive. You will always hear alarms. Set when you want to be in this mode, or choose indefinitely.
- **None:** Turn off all sounds and alarms. Override sound settings from other apps. Set how long to stay in this mode, or choose indefinitely.

Tip: Touch (🔔) for vibrate or (🔕) for ring.

This icon shows your volume setting:
🔕 = NONE
⚙️ = PRIORITY
🔔 = PRIORITY

Touch an option to set the types of notifications and alarms to hear.

Set the volume using the side Volume Keys.

Change to vibrate or back to ring.

Help & more

Get answers, updates, and info:

- **Help is here:** Touch Apps (☰) → **?** **Help** to get walk-through tutorials, how-tos, FAQs, or chat with people who can help, right on your phone.
- **Everything Moto E:** Get PC software, user guides, and more at www.motorola.com/mymotoe.
- **Accessories:** Get accessories for your phone at www.motorola.com/mobility.
- **Get apps:** Touch Apps (☰) → **Play Store** to buy and download apps.
- **News:** Here's how to find us:
 - YouTube™ www.youtube.com/motorola
 - Facebook™ www.facebook.com/motorola
 - Twitter www.twitter.com/motorola
 - Google+™ www.google.com/+Motorola/posts

moto e

let's get started

Discover your Moto E

Your phone knows whether you're in a meeting or sleeping.

Tip: To adjust these features any time, touch Apps → **Moto**.

- **Moto Assist:** Based on where you are and what you are doing, Moto Assist suggests ways to help you, such as keeping your phone quiet at night.
- **Moto Display:** See messages, calls, and other notifications as they arrive—even if your phone is asleep.

Note: Your phone may not have all of these features.

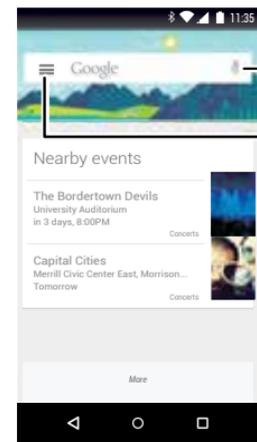

Google Now™

Google Now brings you just the right information at just the right time, before you even ask. Weather, traffic, and even the latest scores appear throughout the day just as you need them.

Find it: Touch and hold Home , then flick up to the Google icon .

Tip: If you've already set up Google Now, swipe right from the home screen to see your updates.

To ask Google a question or perform a task, just say "OK, Google", followed by your request.

Set reminders, customize or change settings.

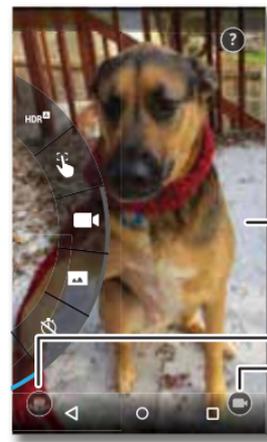

Stuff that's important to you shows up here.

Photos

Take clear photos with a twist of your wrist and a tap on the screen.

- **Launch it:** Even when your phone is asleep, twist your wrist twice, quickly, to launch camera anytime.
- **See it:** Swipe left for your photo gallery (**Gallery**).
- **Share it:** View a photo or video from your gallery, then touch Share .

Tip: Swipe right for effects and settings, like panorama. Open the camera anytime by twisting your wrist twice.

Touch anywhere to take the photo. Touch & hold to take multiple shots.

Swipe right for effects and settings.

Switch to front camera.

Switch to video camera.

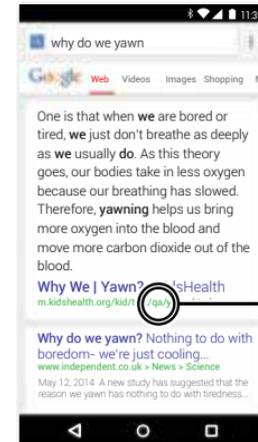

Chrome™

Find the info you want, whenever you want.

Find it: Apps → **Chrome**

- **Go to a webpage:** Touch the address bar at the top of a page and enter an address, like www.google.com.
- **Add or open bookmarks:** Touch Menu → ☆ to bookmark the page, or **Bookmarks** to see your other bookmarks.

Tip: Double-tap to zoom in and out. Or pinch/separate two fingers on the screen.

See options.

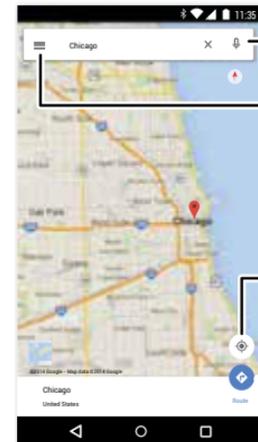

Touch a link to select it. Touch & hold for more options.

Google Maps™

Find a nearby cafe and get directions or step-by-step navigation using the Google Maps you know and trust.

Find it: Apps → **Maps**

Enter what you want to find, then touch a result to see more information and options.

Search by voice for an address or location.

See settings, help, & more.

See your current location.

Get directions & navigation instructions.

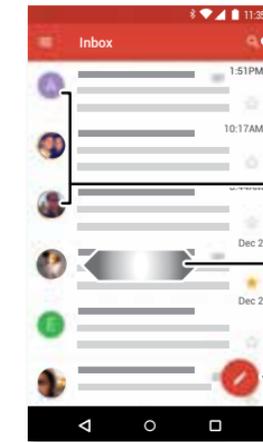

Email

Now, where did they say to meet up? Check your messages, old and new.

Find it: Apps → **Gmail** or **Email**

You can set up Gmail™ when you turn on your phone for the first time or do it later. For other email, just open the **Email** app and follow the prompts.

Tip: Want to chat instead? To use Hangouts™ to video or text chat, touch Apps → **Hangouts**.

Touch to search mail.

Touch to choose multiple messages, then touch to select an option.

Swipe left or right to archive a message.

Touch to compose a new email.

For Your Safety

Before assembling, charging or using your mobile device for the first time, please read the important product safety and legal information provided with your product. **Warning:** Don't try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury. If your phone becomes unresponsive, try a reboot—press and hold the Power key until the screen goes dark and your phone restarts.

Specific Absorption Rate (FCC & IC)

YOUR MOBILE DEVICE MEETS FCC AND IC LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC) and Industry Canada (IC). These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 1.6 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the FCC and IC guidelines for your device model are listed below:

Model XT1527

Head SAR	LTE B7, WiFi, Bluetooth	1.20 W/kg
Body-worn SAR	LTE B7, WiFi, Bluetooth	0.98 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body.

Additional information can be found at www.motorola.com/rfhealth.

Usage

This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details. Certain apps and features may not be available in all countries.

Copyright & Trademarks

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Contact your service provider for details.

All features, functionality, and other product specifications, as well as the information contained in this guide, are based upon the latest available information and believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.

Product ID: Moto E (Model XT1527)

Manual Number: 68017873001-B

SAR This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your head or, when worn or carried, at a distance of 1.5 cm from the body. The SAR guideline includes a considerable safety margin designed to assure the safety of all persons, regardless of age and health.
